R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
```

```
##      speed      dist
##  Min.   : 4.0    Min.   :  2.00
## 1st Qu.:12.0    1st Qu.: 26.00
##  Median :15.0    Median : 36.00
##   Mean  :15.4    Mean   : 42.98
## 3rd Qu.:19.0    3rd Qu.: 56.00
##   Max.  :25.0    Max.    :120.00
```

Including Plots

You can also embed plots, for example:

% Table created by stargazer v.5.2.2 by Marek Hlavac, Harvard University. E-mail: hlavac@fas.harvard.edu
% Date and time: Sun, Aug 23, 2020 - 18:46:52

Table 1: PGLS: ln(Lifespan) ln(Size)	
	ln(Lifespan)
ln(Size)	0.200*** (0.027)
Constant	1.327*** (0.237)
Observations	28
Log Likelihood	-22.160
Akaike Inf. Crit.	50.320
Bayesian Inf. Crit.	54.095
<i>Note:</i> *p<0.1; **p<0.05; ***p<0.01	

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
